

POSTGAME QUOTES

Minnesota Timberwolves vs. Memphis Grizzlies – Nov. 1, 2016

Grizzlies Guard Andrew Harrison

On the positives you can take from a tough loss...

"I mean that we kept fighting, I guess, until the end. We [weren't] really playing the score [and] just kept fighting until the end. Our veterans stayed on us. They stayed in the game as much as possible and it really kept us going."

On what the team has to improve upon for tomorrow...

"As the young players, you just have to play better. Less turnovers, easier plays, and make the easy play, really. Continue to work hard and that's all we can do."

On the large amount of playing time he gets when the veterans on the team sit out...

"Man it's crazy. You just enjoy getting a lot of playing time and stuff, but at the same time you want to win and today two of our top guys were out and we didn't come through."

Grizzlies Forward Wayne Baldwin IV

On the large number of turnovers...

"Probably my five was out of the 18 or 20 that we had. I tried to force it a little bit. Obviously, the carry was questionable, but I feel like I do that all the time. They caught me with it that time, but against a team like that turnovers kill us. They love to run in transition and they do a good job of converting so that was a big factor in the first half of having 15 in the first half."

On the young guys making mistakes...

"It is inexcusable. Obviously, a lot of the young guys that played tonight made rookie mistakes and it's unacceptable."

On taking the loss as a learning experience...

"I guess everything is a learning experience, but to consecutively to come here and be down the margins we have been, it doesn't make any sense. Even with Mike (Conley) and Marc (Gasol) not playing, guys have to play better."

On Minnesota's defense getting a lot of steals...

"I think we were very careless. I don't want to discredit their defense, but a lot of it was us being too forceful with it. Us throwing it around too much and they capitalized on our mistakes."

On the valuable experience of playing on a veteran team...

"It's an obvious question. You have these guys that have been in the league for eight plus years now and it just makes my transition faster than maybe some other rookies."
