## Minnesota Timberwolves vs. Los Angeles Clippers – Nov. 12, 2016

### Timberwolves Forward/Center Karl-Anthony Towns

*On going against the Clippers defense...*

“We had to do a better job. As a team, we took some hard shots, we took some tough shots. We moved the ball well in the beginning, tried to find some shots that we liked. First off, we’ve all been shooting pretty well today so we gave it our best shot, tried to do it the best we could.”

*On the team’s mindset...*

“We feel good about every day, we’re getting better. We’re getting better every day. We’re improving as a team, regardless of what the record shows. We’re just trying every single day to take ourselves to the next level.”

*On if he thought it would be this hard this season...*

“The NBA is hard. It’s hard. If it was easy, everyone would be part of it. That’s why there’s only a special select group that gets to be a part of this fraternity. We know every day, no matter what the team is, it’s going to be a hard game and you’ve got to earn the win.”

### Timberwolves Forward Andrew Wiggins

*On the team’s third quarter struggles...*

“It was tough. We had to work for our shots. They clogged the paint up, switching everything, contesting every shot. They made it hard on us.”

*On the team’s mindset...*

“It’s a good thing about the league...we play again tomorrow. We’ve got to focus on that game. This game is out of the window already. We’ve got something new tomorrow.”

### Timberwolves Guard Ricky Rubio

*On how he felt after returning to the lineup...*

“Trying to find a rhythm. Trying to find how to run the team, too. First game back after a couple weeks. Just get the rust out.”

*On the Clippers defense...*

“That’s why their record is so good. They’re playing good basketball right now and the key, I think, is the defense. They have DeAndre in the paint and it’s hard to get there. Their defensive pick and roll is good. I think we didn’t play our best either, but you’ve got to give them credit.”
